## HOW TO PREPARE FOR YOUR VISIT AT LUNARIA

Make an appointment – not always necessary but if you don't have an appointment you may have to wait for someone to help you.

- Come Prepared:
  - photos of your space, existing lights or other details
  - floorplans and elevations or at least dimensions
  
- Here are some questions to ask yourself:
  - Do you have a budget?
  - How much light do you need?
  - How do you want the light to function?
    - Task
    - Ambient
    - Lit sculpture
  - Are you working with a permit?
    - Kitchens and bathrooms often have a title 24 requirement and need energy efficient lights or at the very least have wattage maximums.
    - What are those limitations if any?
  - How quickly do you need the light?
  - Do you have a Smart Home? What system are you using?

Ways to gain inspiration:

Have you checked out Pinterest? Find [Lunaria on Pinterest](#) and all our boards.

Houzz has some great images. Find [Lunaria on Houzz](#)

Our [Facebook](#) page has some great resources.

Expectations:

From your visit you can expect some homework. Our goal is to leave you with a few directions that will lead to a fairly speedy decision on your part. Lunaria will partner with you in this decision making process and hopes to leave you feeling like you want to tell everyone all about it.
